# 2016 Summative Report

FRANCISCAN SISTERS OF THE IMMACULATE CONCEPTION OF THE HOLY MOTHER OF GOD (SFIC)  
SFIC- KENYA MISSION, Mukinduri Gardens, Forest Edge Street  
P.O. Box 15225 – 00509, Langata, Nairobi

SUMMATIVE REPORT  
2016 January – March 2017

**PROJECT: “Support for the Education of 30 Young Girls at St. Teresa Kehancha Girls Secondary School”**

## I. BACKGROUND INFORMATION

For the School Year 2016, The PROJECT: *“Support for the Education of 30 Young Girls at St. Teresa Kehancha Girls Secondary School”* has been expanded by St. Teresa Kehancha Girls Secondary School in both its understanding and its operationalization. Now on its fifth year, (2012-2016) the role of St. Teresa Kehancha Girls became more distinct and pro active as the 3<sup>rd</sup> party of the project. The thirty (30) recipients-beneficiaries of this joint Scholarship-sponsorship project of MOKK Stichting and SFIC Kenya Mission expressed their deep commitment to the **project’s continuity**.

### *St. Teresa’s New Administration*

St. Teresa is currently run by a new Administration Team composed of the School Board of Management approved by the Bishop of the Diocese of Homa Bay, of Principal from the SFIC Kenya Mission and the School Administrator from the Parish Pastoral Council of Kehancha Catholic Parish. The team implemented a new Policy guidelines provided by the Kenya Conference of Catholic Bishops. *(In the pictures below, Rt. Rev. Bishop Philip Anyolo, bishop of the Diocese of Homa Bay and President of Kenya Conference of Catholic Bishop during his visit to the school).*

## 2016 Summative Report

In response to the new policies and guidelines of the Ministry of Education, the new management also ensured quality personnel and sound internal policies. To give life to the new organizational structure of the school, all personnel adhered to their roles and functions. These gave ways to open communication in all levels of the administration. Offices and needed spaces were delineated for right purpose as there is a place for every activity when needed. The school Rules and Regulations became the references in many cases. Disciplinary committee was constantly utilized for its duties and responsibilities. Students' support system like the official use of telephone, guidance and counseling and availability of basic needs from the school canteen were also offered. Students' participation and dialogue was also encouraged in lieu of corporal punishment. Democratic processes are practice and took roots.

*Left: Students electing their prefects through secret ballots and  
Right: The School Administrator tallying the election results.*

### *c. The Association of Prosperous Seeds*

In January 2016, the thirty (30) Scholars/Sponsored Students of St. Teresa Kehancha Girls Secondary School organized themselves into an association bonded by a common mission, objectives, programs and activities. They served as peer support for one another in their academic studies and co-curricular activities. In Form 3 and Form 2 classes, where majority of the Academic scholars belonged, the impact of the academic scholarship project was clearly shown with the high mean grade of the 2 year levels. It is projected that this improved standing of the students and of St. Teresa's.

**The Association of Prosperous Seeds' Key officers;**  
Left to Right:  
Judith Mariba, Chairperson  
Beatrice Bhoke, Vice Chairperson  
Rachael Aseda, Secretary

### *d. St. Teresa's "Laudato Si Integrated Farm"*

The association initiated volunteerism, food, feeds and livestock production activities, among themselves and in extension by their parents and guardians. These efforts are being complimented by the school curriculum focusing on sustainable agriculture. Students were encouraged to take subjects on Agriculture and develop appropriate agricultural technology and food security promoting activities. *(Pictures showed an agricultural student with her rabbits, football pitch is also used as a grazing field for sheep, goats and cows).*

Some Scholars and sponsored students brought (17) heads of native chicken, en to stock their poultry project. Six (6) of which were able to produced chicks. Parents brought also banana suckers and planted them at the school farm in support of the students' project. There were 25 pawpaw trees planted as well as several hundreds of

## 2016 Summative Report

---

seedlings of various trees. To ensure their growth maintenance, members of the association were assigned to take care of the livestock, the maize and vegetable production, the mangoes, papaya, and avocado orchards; still others do reforestation, planting Napier grasses and compost-making.

This integrated farm project named later as **St. Teresa's "Laudato Si Integrated Farm"** produced also Kales, beans, tomatoes, onions, traditional vegetables and maize which were supplied to the school kitchen for students' consumptions.

### III. *MOKK Stichting partially funded "Laudato Si Integrated Farm"*

In the 2015 Summative Report forwarded to MOKK Stichting I've mentioned the proposed new phase of our partnership. I quote,

***"We would like to offer this new phase in our partnership: a partnership in the sustainable agriculture for agricultural technology development and food security. We are therefore requesting you to kindly study the possibilities of supporting us in our "Drip-irrigation and green house vegetable production project". The new Administration of St. Teresa's has mobilized water source system in the form of a new borehole that can irrigate enough portion of land that can produce enough vegetables for students' consumption (See Annex #4). Subscribing to Pope Francis' Encyclical, "Laudato Si, Care for our Common Home" green projects at St. Teresa Kehancha Girls Secondary School will be one of the best ways to care for Mother Earth and in turn Mother Earth to care for us."***

Although MOKK Stichting did not commit for the proposed new phase in the project partnership, and therefore did not allocated a separate fund for this, the Project Coordinating Team decided to start this phase of the project. The team utilized the additional Kenya shillings gained from a high foreign exchange of the total fund send by MOKK for the Scholarship project. (Please refer to Financial report: Euro to Kenya Shillings exchange). Whereas in 2015, the extra amount from this foreign exchange was reported project administrative cost and partly utilized to finance one teacher for his further academic training. In 2016, I am presenting this extra/gained amount as budget spent for ***"Laudato Si Integrated Farm"***, the sustainability phase of The PROJECT:

## 2016 Summative Report

---

### **“Support for the Education of 30 Young Girls at St. Teresa of Kehancha Girls Secondary School”**

#### ***a. Livestock and infrastructure for “Laudato Si Integrated Farm”***

Besides some chicken which were brought by the students-scholars, cows, goats and sheep were also purchased to start the Integrated Farm. **Animal shed** was constructed to house them as well as chicken, ducks and rabbits houses. Fencing was necessitated to allow the animals to freely graze, hence, the whole **football pitch was fenced** to serve as the animals grazing field as well. The forested area and the vegetables garden were also fenced to protect them from the animals’ intrusion.

Top: The Animal shed housing the cows, goats and sheep; the fence that enclosed the football pitch and left; the trimmed compound of St. Teresa’s

#### ***b. Net gains from “Laudato Si Integrated Farm”***

The first net gain from the “**Laudato Si Integrated Farm**” project is the growing awareness to the importance of ecology by the school community secondly, the knowledge and skills developed in our students of the appropriate technology in doing integrated farming. Thirdly, the utilization of students’ food waste to feed the animals like chicken and ducks considered as waste management. While the cows, goats and sheep feed on the grasses within the school compound, thus maintaining the football pitch and the school ground trimmed and clean. Lastly, the crops produced from the “**Laudato Si Integrated Farm**” added income to the school. The total sales of these crops within seven months like: maize, kales and beans amounted to Kshs 24, 152.00 which enabled the project to buy one cow.

It is encouraging to note that the harvest from the integrated farm is still getting higher in value as the animals continue in multiplying and soon the cows are to give milk too. Even the soil is getting richer and fertilized, and the fruit trees started to bear fruits like papaya, and bananas. These developments will soon lead the project to expansion

## 2016 Summative Report

and diversification. *St. Teresa's "Laudato Si Integrated Farm"*, will indeed serves as the sustainability phase of The PROJECT: *"Support for the Education of 30 Young Girls at St. Teresa of Kehancha Girls Secondary School"*.

### IV. Some of 2016 SIGNIFICANT EVENTS

Clockwise: 1. Winners of Essay Writing Contest sponsored by Journalism Club; 2. Sr. Ma Lourdes Santos, SFIC General Superior with all the MOKK Stichting Scholars; 3. F4 students received books from Alumnae Association represented by Sr. Lily Chelangat; 4. & 5. Students playing football and volleyball during sports festival; 6. F1 Students marking their plots for Agriculture subject; 7. Sr. Ma. Lourdes and companion being dressed in traditional attires; 8. Fr. Theophilus with some of the students at the closing of 2016 School Year.

## 2016 Summative Report

### V. 2016 FINANCIAL REPORT

As indicated in IV. MOKK Stichting partially funded “*Laudato Si Integrated Farm*”, the Project Coordinating Team decided to invest to **St. Teresa’s “*Laudato Si Integrated Farm*”** the extra amount gained from high exchange rate between Euro and Kenya shilling amounting to Kshs 148,960.00. This investment is the initial phase of the sustainability phase of The PROJECT: ***“Support for the Education of 30 Young Girls at St. Teresa of Kehancha Girls Secondary School”***.

This is in preparation of the phasing-out of MOKK assistance which will commence on 2018.

<b>Total Project Fund Received from MOKK Stichting:</b>	<b>Equivalent Amount in</b>
Euros 12,110.00	Ksh. 1,359,960.00
<b>Less Expenses</b>	
<b>Nature and Purpose of Expenses</b>	<b>Amount:</b>
1. School Fees of 30 Student-Scholars	Ksh. 1,211,000.00
2. Co-curricular Activities:	
• Sports Festival (Foods and Medical Kits)	3,000.00

- a. Veronica Rioba, one the Form 3 sponsored student had a vehicular accident in August 2016. The accident prevented her from coming back to the school for the rest of Term 2. She had difficulty in walking hence her guardian decided to stop her schooling. She was not recommended for 2017.
- b. Sarah Robi Wegesa, a F4 Academic scholar, was not able to complete her Form 4 due to family problem. She is being recommended to repeat her Form 4 as Academic Scholar.

## VII. PROJECT IMPLEMENTATION

For 2016, the Project Coordinating Team will composed of Sr. Evelinda as the Project Coordinator, Mr. John Mangenyi and Sr. Susan Kajuju Thiruaine, the new Deputy Principal of St. Teresa's. The Association of Prosperous Seeds, the association of the students-scholars will continuously be animated to participate actively in the implementation of the **PROJECT: "Support for the Education of 30 Young Girls at St. Teresa Kehancha Girls Secondary School"**.

With the introduction of the new phase of this project, the sustainability phase, the scholars and their parents/guardians will be encouraged to sustained their participation and support to the project. St. Teresa's will also put on board the previous scholars/sponsors of MOKK Stichting-SFIC Kenya Mission through their Alumnae Association to join in the sustainability phase of the project.

An impact assessment of the financial assistance of MOKK Stichting will also be conducted by the Project Coordinating Team. Notably, MOKK Stichting started their support to St. Teresa's in financing the Library building. The team considered it as the Phase 1 of MOKK support to St. Teresa's: the Infrastructure Development. The **PROJECT: "Support for the Education of 30 Young Girls at St. Teresa Kehancha Girls Secondary School"** is now called the Phase 2, the Human Resource Development. The Introduction of the sustainability phase, the Phase 3 of MOKK support will be termed as the Institutional Capacity building of St. Teresa's. **St. Teresa's "Laudato Si Integrated Farm"**

## 2016 Summative Report
